

# TABLE OF CONTENTS

## SECTION 8.1 -HIGHWAY DESIGN

### Chapter 1 INTRODUCTION

- 1.1 Description of Review Materials and References ..... 8-9

### Chapter 2 HORIZONTAL CURVES

- 2.1 Introduction to Horizontal Curves ..... 8-10
- 2.2 Basic Data and Nomenclature ..... 8-10
- 2.3 Spirals ..... 8-12
- 2.4 Example Problems ..... 8-12
- 2.4.1 Example Problem 1 – Highway ..... 8-12
- 2.4.2 Example Problem 2 – Railroad ..... 8-12
- 2.4.3 Example Problem 3 - Basic Horizontal Curve ..... 8-13
- 2.4.4 Example Problem 4 – Stationing Along Compound Curve ..... 8-15
- 2.4.5 Example Problem 5 – Length of Reverse Curve ..... 8-22
- 2.4.6 Example Problem 6 – Radius of Circular Curve ..... 8-24
- 2.4.7 Example Problem 7 – New Radius of Circular Curve ..... 8-25
- 2.4.8 Example Problem 8 – Central Angle of a Curve ..... 8-27
- 2.5 P.E. Problems ..... 8-28
- 2.5.1 P. E. Problem 1 – New Curve Alignment ..... 8-28
- 2.5.2 P. E. Problem 2 – Stationing Along Reverse Curves ..... 8-31
- 2.5.3 P. E. Problem 3 – Horizontal Curves ..... 8-33
- 2.5.4 P. E. Problem 4 – Coordinates on a Reverse Curve ..... 8-36
- 2.5.5 P. E. Problem 5 – Horizontal Curve ..... 8-40
- 2.5.6 P. E. Problem 6 – Horizontal Curve ..... 8-42
- 2.5.7 P. E. Problem 7 – Horizontal Curve and Deflection Angles ..... 8-45

## Chapter 3

### VERTICAL CURVES

3.1	Introduction . . . . .	8-48
3.2	Basic Nomenclature and Formulas of Vertical Curves . . . . .	8-49
3.3	Vertical Curve Through a Fixed Point . . . . .	8-50
3.4	Example Problems . . . . .	8-51
3.4.1	Example Problem 1 – Vertical Curves . . . . .	8-51
3.4.2	Example Problem 2 – Sag Vertical Curve . . . . .	8-53
3.4.3	Example Problem 3 – Station Calculation Along Vertical Curve . . . . .	8-54
3.4.4	Example Problem 4 – Length of Vertical Curve . . . . .	8-56
3.4.5	Example Problem 5 – Vertical Curve Over Railroad . . . . .	8-58
3.4.6	Example Problem 6 – Vertical Curve – Sag on a Curbed Street . . . . .	8-60
3.4.7	Example Problem 7 – Vertical Curve – Over/Under Existing Hwy . . . . .	8-62
3.4.8	Example Problem 8 – Vertical Curves – Two Alignment . . . . .	8-63
3.5	P. E. Problems . . . . .	8-66
3.5.1	P. E. Problem 1 – Vertical Curve – Highway Crossing . . . . .	8-66
3.5.2	P. E. Problem 2 – Highway Profile Along Vertical Curve . . . . .	8-71
3.5.3	P. E. Problem 3 – Vertical Curve – Street and Railroad . . . . .	8-75
3.5.4	P. E. Problem 4 – Vertical Curve . . . . .	8-77
3.5.5	P. E. Problem 5 – Vertical Curve . . . . .	8-79

## Chapter 4

### CLEAR RECOVERY ZONE AND CRASH CUSHION

4.1	CRZ Concept . . . . .	8-81
4.2	Design Aid . . . . .	8-81
4.3	Crash Cushion and End Treatment . . . . .	8-88
4.4	Crash Cushion based on Conservation of Momentum . . . . .	8-89
4.4.1	Example Problem . . . . .	8-90

## Chapter 5

### AMERICAN WITH DISABILITY ACT AND BIKEWAYS

5.1	Introduction. . . . .	8-91
5.2	ADA Design Considerations. . . . .	8-92
5.2.1	Example Problem . . . . .	8-99

---

5.3	Bikeways .....	8-99
5.3.1	Class I Bikeway Example .....	8-100
5.3.2	Class II Bikeway Example .....	8-101
5.3.3	Class III Bikeway Example .....	8-103
5.3.4	Design Criteria .....	8-103

## Chapter 6

### SIGHT DISTANCE (STOPPING & PASSING)

6.1	Introduction .....	8-105
6.2	Breaking Distance Also Called Stopping Sight Distance (SSD) .....	8-105
6.3	Example Problems .....	8-106
6.3.1	Example Problem 1 – Braking Distance .....	8-106
6.3.2	Example Problem 2 – Braking Distance .....	8-107
6.3.3	Example Problem 3 – Braking Distance .....	8-107
6.4	Sight Distance .....	8-109
6.5	Crest – Vertical Curve .....	8-109
6.5.1	Example Problem 1 – Vertical Curve .....	8-110
6.6	SAG – Vertical Curve (Standard Headlight Criteria) .....	8-111
6.6.1	Example Problem 1 – SAG Vertical Curve .....	8-111
6.7	Riding Comfort (Centrifugal Acceleration) on SAG Vertical Curve .....	8-111
6.7.1	Example Problem 1 – Riding Comfort .....	8-112
6.8	Adequate Sight Distance Under an Overhead Structure to See An Object Beyond a SAG Vertical Curve .....	8-112
6.8.1	Example Problem 1 – Vertical Curve .....	8-112
6.9	Horizontal Curve (To See Around an Obstruction) .....	8-113
6.9.1	Example Problem 1 – Stopping Sight Distance .....	8-113
6.9.2	Example Problem 2 – Safe Operating Speed .....	8-114
6.9.3	Example Problem 3 – SSD on Horizontal Curve of a Freeway .....	8-115
6.9.4	Example Problem 4 – Radius of Curve Through a Point .....	8-117
6.10	P. E. Problems .....	8-121
6.10.1	P.E. Problem 1 – Range of Centerline Radii on Highway .....	8-123
6.10.2	P.E. Problem 2 – Horizontal Curve on Highway .....	8-125
6.11	Design Aids .....	8-127

---

## Chapter 7

### SIGHT DISTANCE AT INTERSECTION

7.1	Introduction .....	8-127
7.2	P.E. Problem .....	8-129
	7.2.1 P.E. Problem 1 – Sight Distance at Intersection .....	8-129
7.3	Design Aids .....	8-133

## Chapter 8

### SUPERELEVATION

8.1	Introduction .....	8-138
8.2	Superelevation. ....	8-138
8.3	Example Problems .....	8-139
	8.3.1 Example Problem 1 – Highway .....	8-139
	8.3.2 Example Problem 2 – Railroad. ....	8-139
	8.3.3 Example Problem 3 – Vertical Curves, Superelevation .....	8-140
	8.3.4 Example Problem 4 – Safe and Comfortable Speed .....	8-143
	8.3.5 Example Problem 5 – Horizontal – Vertical Curve Superelevation	8-144
8.4	P.E. Problem .....	8-147
	8.4.1 P.E. Problem 1 – Horizontal-Vertical Curve over Railroad .....	8-147
8.5	Excerpts and Design Aids from Highway Design Manual .....	8-151

## Chapter 9

### TRAFFIC-NUMBER OF LANES

9.1	Highway Capacity Design .....	8-153
9.2	Example Problem. ....	8-153
	9.2.1 Example Problem 1 – Calculation of Number of Lanes. ....	8-153

## Chapter 10

### SKIDDING DISTANCE

10.1	Introduction .....	8-160
10.2	Example Problems. ....	8-160
	10.2.1 Example Problem 1 – Velocities at Beginning of Skid .....	8-160
	10.2.2 Example Problem 2 – Skid marks. ....	8-162
10.3	P.E. Problem .....	8-164
	10.3.1 P.E. Problem 1 – Skidding Analysis .....	8-164
	10.3.2 P.E. Problem 2 – Skidding Distance. ....	8-166

---

10.4	Design Aids.....	8-167
------	------------------	-------

## **Chapter 11**

### **SIGNAL TIMING AND TIME-SPACE DIAGRAMS**

11.1	Example Problems.....	8-169
11.1.1	Example Problem 1 – Signal Timing.....	8-169
11.1.2	Example Problem 2 – Time-Space Diagram.....	8-173
11.2	Design Aids for Signal Timing.....	8-184

## **Chapter 12**

### **TRAFFIC SPOT SPEED**

12.1	Introduction.....	8-175
12.2	Example Problem.....	8-175
12.2.1	Example Problem 1 – Traffic Speed.....	8-175
12.3	P.E. Problem.....	8-179
12.3.1	P.E. Problem 1 – Traffic Spot Speed.....	8-179

## **Chapter 13**

### **RAIL RAPID TRANSIT OPERATIONS**

13.1	P.E. Problem.....	8-182
13.3.1	P.E. Problem 1 – Rapid Transit Analysis.....	8-182
13.2	Design Aids.....	8-186

## **Chapter 14**

### **MULTIPLE CHOICE PROBLEMS**

14.1	Multiple Choice Example Problems.....	8-188
14.1.1	Example Problem 1.....	8-188
14.1.2	Example Problem 2.....	8-190
14.1.3	Example Problem 3.....	8-191
14.1.4	Example Problem 4.....	8-194
14.1.5	Example Problem 5.....	8-195
14.1.6	Example Problem 6.....	8-197
14.1.7	Example Problem 7.....	8-198
14.1.8	Example Problem 8.....	8-199
14.1.9	Example Problem 9.....	8-200
14.1.10	Example Problem 10.....	8-201

---

14.1.11	Example Problem 11 .....	8-202
14.1.12	Example Problem 12 .....	8-203
14.1.13	Example Problem 13 .....	8-204
14.1.14	Example Problem 14 .....	8-205
14.1.15	Example Problem 15.....	8-206
14.1.16	Example Problem 16 .....	8-207
14.1.17	Example Problem 17 .....	8-208
